Re : **Toyota CSi Corolla Reg No xxxxxx**

My company, Alltec Motor Assessments and Private Investigators are specialists in the motor industry. Throughout my 27 years experience in this trade, I have been employed in the following positions:

- Licensed panel beater, specialising in motor body repairs
- I have owned and managed a smash repair business for seven years
- I have worked as a Motor Assessor for an insurance company for two years
- I have worked as an estimator and manager for various workshops
- Over the past three year period I have been a private investigator (factual)
- I have been a Justice of the Peace for the past three years.
- And the past two years have been self employed with my company Alltec Motor Assessments.

Qualifications :

- Licensed Panel Beater
- Licensed Spray Painter
- Licensed Mechanic
- Licensed Private Inquiry agent
- Licensed to inspect and detect faults in the motor trade by the Motor Vehicle Repair Industry Authority
- Member of the Motor Traders Association
- Member of the Institute of Automotive Mechanical Engineers also an Examiner
- Member of the Institute of Accident Assessors

In conducting this assessment, I John Venier have read and understood the Expert Witness Code of Conduct contained in Schedule 7 of the Uniform Civil procedure Rules 2005 to the said rules and agree to be bound by it.

Alltec thanks you for the opportunity to produce a Valuation on Mr. xxxxxxxx xxxxx vehicle, a Toyota CSi Corolla Reg No xxx xxx. This Inspection was carried out on the xx of April 2007 at Mr. xxxxxxxx xxxxx Home address xx xxxxxxxx Place xxxx xxxxx.

This valuation will include 2 sources of motor vehicle valuations they are reference valuation guides from the Red Book Guide and Glasses Guide which will be attached at the end of the report .I have also included excerpts from the Trading Post from date of accident to bring reality to this valuation to a true market. These will be averaged out to give a fair and reasonable valuation taken into account the age, mileage, model and condition in a pre accident state on the accident date.

Also a Post Accident Valuation has been carried out. Just a reminder that a Salvage Value can only be accurate once sold so any figures given are estimates only. In this case I have given three salvage estimates. An Auto Dismantler secondly an Auction Yard thirdly Alltec using our past experiences in the motor trade.

In this inspection the Toyota Corolla was identified as follows:

Make	Toyota	Rego	xxx xxx	Body	Sedan
Model	Corolla AE101R	Vin No	xxxxxxxxxxxxxxxxxxxxxx	M/Year	9/1998
Id	CSi	Colour	Green Metallic	Kms	177479

I consider this car to be in average condition and average range of kilometre reading pre accident. Given this vehicle has a number of broken windows in this collision, it has caused it to be exposed to the elements which has deteriorated the inner trims since the accident date 9 months ago. I still consider it to be having been in an average condition pre accident. In its present written off state repairs costs would well exceed the market value by far and felt no need for an estimate to be written.

Image 6

The damage sustained to this was vehicle is severe to the rear end. The rear beaver panel and both quarter panels and structural components have severe damage requiring replacement. Structural parts such as the cabin floor, chassis rails and turret is considerably bent. The impact to the rear of this vehicle appears to have pushed into another vehicle as the front is also damaged from the significant force involved with this incident. All damages indicate a multi vehicle collision.

Valuation Table: at th June 2007 Pre Accident:

Red Book Guide	\$ 7740.00	Annexure 1
Glasses Guide (auto edge software)	\$ 6400.00	Annexure 2
Trading Post excerpt	\$ 8800.00	Annexure 3

AVERAGED MARKET VALUE = \$ 7646.00

Salvage value: at April 2007 Post Accident:

Auto Dismantler Estimate	\$300.00	C Young Dismantlers
Auction Yard Estimate	\$400.00	Pickles Auctions
Alltec Motor Assessments Estimate	\$200.00	

AVERAGED SALVAGE ESTIMATE = \$ 300.00

Alltec Motor Assessments would be happy to answer any questions if any feel free to contact the writer on above contact details
